

Hospital plans that keep up with reality

Karmarker builds your staff rosters and surgical plans automatically. When someone calls in sick or an emergency arrives, it re-plans for you, so the day stays on track.

Built for nurses, doctors, theatre managers and operations teams.

One intelligent system for hospital planning

• THE PRODUCT

STAFF ROSTERING

- ✓ Automates rosters around skills, contracts and approved leave
- ✓ Ensures compliance with hospital policies, fatigue rules and regional regulations
- ✓ Repairs the roster when someone calls in sick, with predictable, balanced schedules

SURGERY PLANNING

- ✓ Plans surgeries by clinical priority and resource availability
- ✓ Optimizes operating rooms, ICU beds and teams, from pre-op to recovery
- ✓ Checks feasibility and turnaround times before scheduling, and flags risks early

INVENTORY MANAGEMENT

- ✓ Supports advance booking and proactive planning when critical stock is low
- ✓ Improves awareness of key medical supplies, kits and medications
- ✓ Helps prevent shortages and overstocking of critical resources

DEMAND FORECASTING

- ✓ Real-time dashboards for operational visibility and planning
- ✓ Forecasts patient demand and resource requirements
- ✓ Supports long-term planning for staffing, surgeries and inventory

Three steps. No new habits.

• HOW IT WORKS

01

Understand

Learns your people, skills, leave and the hospital's demand.

02

Plan

Builds balanced rosters and surgical schedules that satisfy every rule.

03

Adapt

Re-plans when reality changes and flags risks before they reach the patient.

OVERALL BENEFITS TO HOSPITAL

HIGHER EFFICIENCY

- ✓ Increases hospital efficiency and patient throughput
- ✓ Optimizes use of staff, operating rooms and resources
- ✓ Reduces delays, bottlenecks and idle capacity

HAPPIER STAFF

- ✓ Fair, predictable schedules that improve satisfaction
- ✓ Reduces burnout by respecting workload and rest rules
- ✓ Transparent scheduling decisions managers can explain

BETTER PATIENT CARE

- ✓ Fewer delayed surgeries: every resource is ready on time
- ✓ Problems flagged before they reach the patient
- ✓ Less time waiting for treatment that could be planned better

Plan for the hospital you actually run.
